Preparing Today's Talent For Tomorrow's Challenges

In this highly interactive session, innovation speaker and futurist Christina "CK" Kerley illuminates how industry leaders, higher education institutions, and HR teams, must prepare today's workforces . . . for the massive challenges of tomorrow's business landscape.

CK advocates how continued learning—a term connoting intermittent training—no longer applies within a time of radical disruption. Instead, organizations must adopt a mindset of continuous learning, as talent assets need constant training in the "new normal" of constant upheaval.

Further, CK explains how Learning and Development should be reinvented into Learning & Transformation.

Perhaps most important, organizations can no longer merely embrace or only adapt to change—they must now SEEK change. As a result, this new priority will position their brands, strategies, and business models to leapfrog their competitors, while upskilling their valued employees.

A forerunner in change and tech disruption for the past 20 years, CK has guided blue-chip companies through scores of digital revolutions.

Along with her extensive corporate experience, CK is a top-rated, part time faculty member at Rutgers Business School for Executive Education where she drives continuous learning programs for professionals aspiring to improve—and transition—their knowledge in this era of digital acceleration.

Her clients include: Johnson & Johnson, Verizon, Microsoft, Prudential, Verisign, The United Nations, and many more. Additionally, she has guest lectured at Stanford, Cornell, Carnegie Mellon, Saint Peter's, Northwestern, The ANA, The IAB, and The Advertising Council.

In this eye-opening, thought-provoking session, speaker and futurist Christina "CK" Kerley takes audiences on a tour of preparing today's talent for tomorrow.
