**Setting The AI Record Straight On History's Most Promising—And Polarizing!—Technology**

Shock-and-awe headlines! Scorched-earth forecasts! And AI Armageddons! AI is the most promising technology in human history—yet it's also the most polarizing.

**In this session CK sets the record straight on AI. Because no matter your age, role, or industry, you can get ahead with AI. But only if you separate the AI facts from all the AI fears, fictions, and falsehoods.**

The real AI job issue isn't automation, it's lack of worker reskilling and business-model reinvention. And intelligent machines won't hurt us, they'll be too busy protecting us: against diseases, wildfires, pandemics, and more.

A world awash in AIs won't decrease the demand for people, as soft skills, creativity, and the humanities will soar in popularity. Moreover, the robots won't de-humanize us, they'll help us to re-humanize our experiences, and hyper-personalize our communications.

**So don't fear—and don't fight—the future. Make AI your moment to get AHEAD. Let CK show your audience what we've been getting wrong . . . how we can get it right . . . and the true wonder and awe of a world revolutionized by AI.**

With 25 years of experience delivering engaging and educational tech keynotes and trainings Christina “CK” Kerley is renowned for her charismatic personality and relentless reinvention.

Her extensive range— a catalog of 15+ topics across 10+ technologies—sets CK apart from other speakers
